THE BEATLES

COMPLETE STUDIO & HOME RECORDINGS

This PDF is an attempt to catalogue every circulating Beatles' Studio and Home recordings (official and unofficial), from 1957 to mid '71, collating various lists, books and web resources in an eternal work-in-progress… It all started decades ago, from the great list "*The Beatles Timeline*" by Piero Carey: http://www.pierocarey.info/beatlestimeline/index.html to which another amazing chronological bootleg/outtakes list were added: "*The Beatles Archives*" by Bamiyan http://www.beatlesarchives.com/home.htm

Later, the obtained maxi-list was further 'upgraded' inserting the 'studio' and 'home' parts of the extraordinary and indispensable Winn's books, checking and updating everything. Meanwhile, other essential books were consulted: Lewisohn, Sulpy, Gottfriedsson, Unterberger, Hammack etc. etc.

Chazz Avery's marvellous website "*The Beatle Source*" was also essential for some parts https://www.beatlesource.com/bs/mains/index.html

At some point I decided to ALSO insert all the Official stuff, sourcing from the greatest and the best list ever made: "*The Usenet Guide to Beatles Recordings Variation*" (update 2021) by Brennan (and Daniels) https://www.friktech.com/btls/variants/BrennanVariationsGuide.pdf, to which, this list could be considered the 'coloured' and updated companion/compendium.

THE BEATLES - THE COMPLETE STUDIO (& HOME) RECORDINGS also comprises (almost) all the VIDEO releases' (sound-tracks) on Movie, VHS, Laserdisc, DVD, Blu-Ray: an obscure subject that Winn and Brennan did not considered in-depth or disregarded.

The list comprises also EVERY collaboration, song for other and solo recordings between 57 -71 and an additional list of 'beatlereunions' between 1971 and 2019

It doesn't include LIVE recordings (concerts, interviews), television / radio broadcasts, cinema / video appearance etc. etc.
- with the exception of period 57-62, containing every available existing recording
- and for some other particular events/recordings, with high historical prominence

Due to space limitations the list shows very limited infos: for more comprehensive details and descriptions refer to Winn and Brennan's works.
⇨ Nevertheless the ''APPENDICES'' section provides further information and contains lots of useful charts and tables.

NOTICE: After the decline of the classic labels' ''bootleg era'', replaced by web-label, it has become more arduous to keep a 'complete' and 'updated' list. In addition to this, the enormous and continuously increasing number of fan-made works, shared on the web (MOGG, Isolations, OOPSed and Spectral demixes, remastered, restored, Mash-ups, etc.) makes problematic the whole idea or pretence of 'completeness'. In fact this catalogue generally excludes fan-made works using 5.1 extractions or MOGG multitrack, namely categories such as 'Fantasy' or 'Experimental' remixes, Mash-ups, and in general all works not 'replicating' a 'real' unreleased recording.
Anyway, **the catalogue includes some top-quality fan-made works** that PERFECTLY reproduce or reconstruct a ''lost'' or unreleased take/remix.

In following pages more than 13.500 recordings are enumerated:
the entire musical home & studio history of The Beatles
across every published and unpublished recording…
the corresponding content of 800 CDs:
-with a minimum number of duplicated songs-

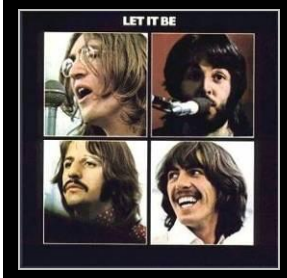
THIS CATALOGUE CONCERNS ONLY **STUDIO** AND **HOME** RECORDINGS:

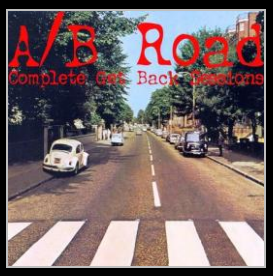
IT DOESN'T INCLUDE **LIVE RECORDINGS** (Concerts, Interviews), **TELEVISION** / **RADIO** Broadcasts, **CINEMA** / **VIDEO** Appearance etc. etc.

(WITH THE EXCEPTION OF PERIOD 57-62, **CONTAINING EVERY AVAILABLE EXISTING RECORDING**

and for some other particular events/recordings, with HIGH HISTORICAL PROMINENCE (such as those shown below)

ALL **GET BACK** / **LET IT BE** PERIOD RECORDINGS ARE CONTAINED IN CHAPTERS 8 & 9 DEDICATED TO THIS ERA.





- This catalogue includes only **DIGITAL** or **DIGITALIZED** format circulating recordings, namely CD, CD-R, Flac and Wave (only occasionally Mp3)

in case of multiple sources of a same recording, -when a ''best version'' cannot be determined-, two or more versions may be kept

This collection, with only a few exceptions (like *ROCKBAND* or some noteworthy fan-made 'reconstructions'), generally leaves out 5.1 extractions,OOPS, MOGG, digitally manipulated and heavily processed tracks

ACETATES (LACQUERS): a reference disk, cut for evaluation purposes,
in a limited number of copies

Acetates are almost never for sale to the general public.
They can be played on any normal record player but will suffer from wear more quickly than vinyl.
Some acetates are highly prized for their rarity, especially when they contain unpublished material.
Acetates are usually made by dubbing from a master recording in another medium, such as magnetic tape.
Within the vinyl record industry, acetates are also used for evaluating the quality of the tape-to-disc transfer.
They were once a favoured medium for comparing different takes or mixes of a recording,
and if pressed vinyl copies of an impending new release were not yet available,
acetates were used for getting preview copies into the hands of important radio disc jockeys.

Beatles' acetates often contain a different version of the song, a different mix, or are cut at a different speed
from the released version; sometimes they contain a song that has never been released at all.
If the master tapes are unavailable, or have been recorded over, an acetate may be the only
surviving copy of that particular piece of music.

UNOFFICIAL RECORDINGS

AUDITIONS

DECCA TAPES - Monday 1 January 1962 - PETE BEST DRUMS

At 11:00am, Paul McCartney, John Lennon, George Harrison and Pete Best were auditioned by Decca staff and performed a total of fifteen songs in one hour. Epstein and the Beatles decided on a selection of songs the Beatles had performed in various clubs over the years, along with three Lennon–McCartney originals.

(The Decca Tapes)

DEMOS

Recording of rough performances, for reference use rather than for general public release;

A way for a musician to approximate their ideas in a fixed format and to thereby pass along those ideas to record labels, record producers, or to other artists. Musicians often use demos as quick sketches to share with bandmates or simply for personal reference during the songwriting process.

HOME DEMOS

(He Said, He Said DEMO)

STUDIO DEMOS

(Step Inside Love Studio DEMO)

STUDIO MONITOR MIXES

Off-line recordings during the preliminary mixing of a song.

The Beatles often recorded their sessions this way for home listening, using a portable cassette-recorder for picking up the sounds coming out of the studio monitors during mixing sessions. By doing so, they involuntarily preserved some mixes which were subsequently lost on the EMI multi-tracks.

UNRELEASED STUDIO OUTTAKES

Recordings of performances not available as a legal release.

Starting with vinyl in the 1970s, through CD issues in the late 1980s, and continuing with digital downloads in the 1990s, the Beatles have been, and continue to be, one of the most bootlegged artists. Bootleg recordings arise from a multitude of sources. The largest single source of Beatles bootleg material is the set of Nagra audio tapes from the 1969 filming of the Get Back / Let It Be rehearsal and recording sessions. A surprising number of Beatles session tapes are available on bootlegs. These range from complete or semi-complete session tapes to more fragmentary performances .

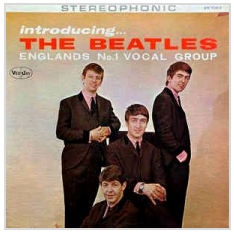
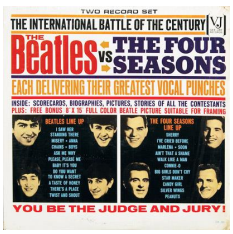
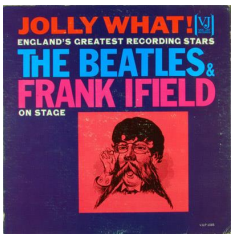
For the same reason the songs contained in the Vee-Jay album's reissues of '*Introducing... The Beatles*' ("*Songs, Pictures and Stories of the Fabulous Beatles*", '*The Beatles vs the Four Seasons*') and singles (included in "*The Beatles and Frank Ifield on Stage*") are not contemplated, being identical to the Vee-Jay versions already included.



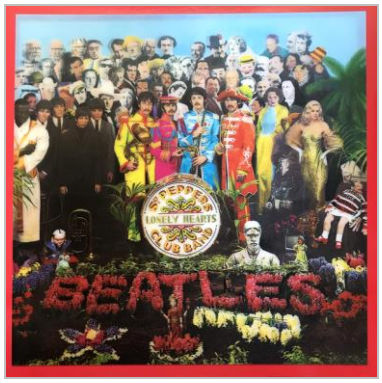


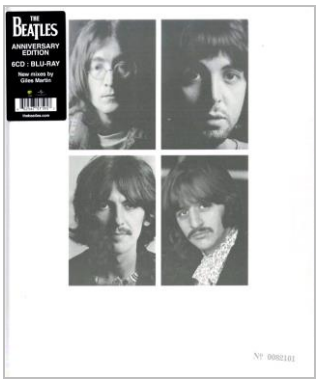


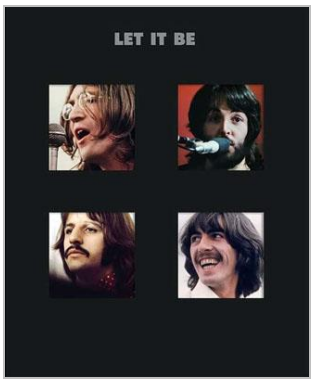
CORE SOURCES: BOOTLEGS

Since the late ’60, Beatles’ unreleased and unofficial material were available only on their numberless bootlegs, but in 1995/1996 a great amount of ‘unreleased’ Beatles’ material (mostly demos and outtakes) was finally officialy released in in the *Anthology* project

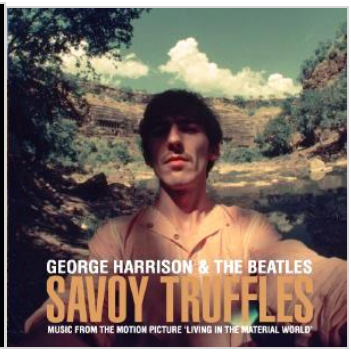
Another large number of demos/outtakes was officialy released between 2017 and 2021 in the ‘‘50th Anniversary’’ Editions

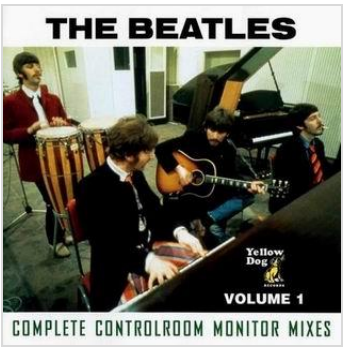


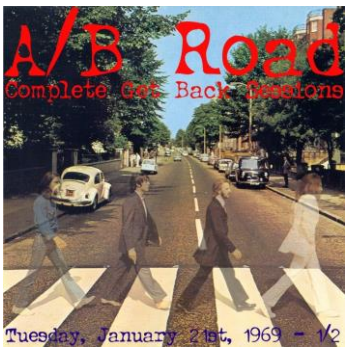


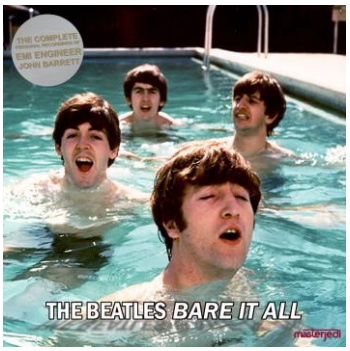


But in any case, much unreleased (and essential) material still remains available uniquely on bootlegs:









The primary sources consist in *Purple Chick* and *Helter Skelter’s* CD-R collections and catalogues, but also all the new material and the essential upgrades by the latest and best compilers/remasters like *Remasters Workshop*, *Lord Reith*, *MasterJedi*, *Colturkey*, *Csnyfan* etc. and, in some cases, from labels like *Fab!*, *Misterclaudel*, *Secret Garden*, *BFB/Rapple* etc.

☞ in case of multiple sources, the choice was made song-by-song, and sometimes the ‘best source’ principle was waived in favour of the subjective “pleasant or interesting listening’ criterion: that’s why, despite the **undisputed technical superiority** of *Masterjedi* works (meticulous and impeccable ‘restoring’ combined with accurate and ‘correct’ EQing), in some cases MJ’s entries are replaced or flanked by *Misterclaudel*’s respectives.

Official *entries and relative* ***variations*** *included here, they comprises EVERY* ***Recording/Mixing*** *variation reported by Winn or Brennan plus significant updates and, in addition to these, several Mastering/Pressing variations. For example W.& B. generally consider Original Albums and CD Reissues as 'same remix', noticing and signalling no difference.*
This set is much more larger, trying to include all the releases of a specific song that sound (significantly) different, despite being the same recording, same remix etc.
Naturally, when releases actually sound very same or identical, for sake of space, clarity and order, only 'Main Releases' will be included (as for W. & B. lists).

Unofficial *entries included comprises not only EVERY available 'bootleg' recording reported by Lewisohn/Winn/Sulpy/Unterberger but includes the latest updates.*
For some recordings (especially the badly reduced ones) two or more versions may be included, this is due to the difficulty of picking out a 'best version';
for example we may have a clean heavy noise-reduced -but muddy- version and a 'genuine' scratchy -but someway clearer and 'honest'- raw version

Songs and Albums are catalogued in rough order of recording (**NOT Release date**), and are grouped into blocks**:**
a specific song and ALL its **variants,** placed all TOGETHER -**in order of recording and/or release**-
The list usually starts with **Demos**/Rehearsals/**Outtakes**/Acetates/unused remixes etc.,
following with **Mono** Official Releases
and finishing with **Stereo** Official Releases.

(reference dates are noted, however, although approximated and simplified)

Official Recording are written **larger** and in CAPITAL LETTERS.

* UK and International **Official Release "Master take"**
  and corresponding **Official** Mono and Stereo **Remixes** **are notated in purple, below song title**
* The source is always specified (as mentioned above, mono ones first, then stereo).
* All existing mixing variants are included,
  as well as some significant **Mastering/Pressing** variants

Unofficial Recording are written in smaller letters.

* Whenever possible, in outtakes listing, Take, Remix and source are always specified
  unknown or undefined Takes or Remix are indicated with X, Y, Z, Θ, Ω and so on.

Specimen of song with different 'major' variants (red) (blue) (green) and several sub-variants

Nowhere Man has 3 'main stereo variants': the "Historic", the "1987 Remix" and the "1999 Remix", but also has -especially the "Historic Remix type"- a large number of 'sub-variants", mostly due to the trend of 'narrowing' (or in some cases rebalance) the channels separation in later vinyl releases

Tony Sheridan - Polydor Sessions

During the Beatles second period in Hamburg (April to July 1961) they regularly backed English singer/guitarist Tony Sheridan.
This sessions took place, not in a recording studio, but on a school stage at Friedrich-Ebert-Halle school in Hamburg.
The Beatles backed Sheridan on several numbers, including *My Bonnie*, which was chosen by Polydor for single release in Germany, credited as "Tony Sheridan and the Beat Brothers"

Star-Club Concerts

These performances were recorded by the club's stage manager, Adrian Barber, for Ted "Kingsize" Taylor,
using a Grundig home reel-to-reel recorder, with a single microphone placed in front of the stage, resulting in a (mono) low fidelity recording.

Zu Laut SE (Mono) (Lord Reith) is the reference source for all tracks, with the exception of LITMW DVD tracks from Savoy Truffles (Helter Skelter) and the ISHST Fan Club Flexi Disc from Live At The Star Club 1962-Raw Tapes (Misterclaudel)

IT'S HERE!
BRAND NEW FROM THE BEATLES.

The astonishingly great two-record album, simply called

THE BEATLES.

30 new mind-bending songs . . . individual color photos of The Beatles . . . and a giant photo collage poster . . . all in the plain white cover with the quietly embossed title . . .

THE BEATLES.

GET YOURSELF THIS ALBUM or get the double 8-track cartridge and turn your car on as well.

COMPLETE STUDIO RECORDINGS

1969

JANUARY 2 - JANUARY 14

THE GET BACK SESSIONS

The sessions began Jan 2 1969 at Twickenham Film Studios in London and continued until 15 Jan (will be resumed between Jan 21 and 31 at Apple Studios)

Sound recordings were made on Nagra mono recorders solely for the purpose of the film sound track; no professional multi-track recordings were made at the Twickenham sessions as the Beatles were simply rehearsing for a proposed live performance.

So at Twickenham there was no "proper" recording done, but the majority of the sessions was captured by the film sound crew, on two Nagra Tape Machines.
One was assigned to Camera A,
the other to Camera B.
The two machines were generally running at the same time,
so both the A rolls and B rolls
have a lot of duplication between them.
But each set of rolls also
has a lot of material that was unique.

Each roll of tape lasted approximately 16 minutes. Often when The A Roll would run out, The B Roll would continue, while Reels were changed on the other machine (and vice-versa).

Thus, it is often possible to edit the 2 sets of rolls together, creating ***uninterrupted*** *rehearsal segments, some lasting 3 hours or more,* yet, due to the start/stop action of the cameras or sound crew, some segments last only a few seconds,.

Notes on "A/B Road" session tapes also known as *The Nagra Reels* **COMPLETE SET** version 1.1

A massive and expertly assembled collection of 83 disks by the good folks at "PurpleChick".
Incredibly complete and with excellent mono sound from the Nagra tape rolls.
All A/B rolls were edited together, closing the gaps whenever the audio tape would run out.
Purple Chick has also edited out the synch beeps whenever possible leaving as much uninterrupted material as possible.
This is a must have set!

I'll make this easy for you. You need Purple Chick's "A/B Road" series. Period.
Using one of my previous books as a template
Purple Chick has compiled every extant moment from the Nagra A and B rolls and edited them together in sequence…

In January, 1969, virtually every moment of The Beatles' rehearsals and recording sessions were captured on audio tape as part of the project that ultimately became the film "Let It Be."
For the first part of the month, at Twickenham Film Studios in London, The Beatles' performances were only preserved on small 16 minute long mono tapes (known as"Nagra" reels) that were recorded for use as the film soundtrack.
Two different tape recorders were running (usually off of the same sound feed), resulting in what was termed "A" and "B"roll Nagra recordings.
The "A" rolls generally ran the full 16 minute length of the tape.
The "B" rolls were more fragmentary, but often captured performances or dialogue missed while the "A" roll operator was changing reels.

In addition, once the sessions shifted to Apple Studios on January 21st, Glyn Johns began recording multi-track tapes of The Beatles' sessions which, again, sometimes captured performances not heard on either the "A" or "B" roll Nagra recordings.
In 2004, Purple Chick collated these recordings, and issued them in a series of CDs called "A/B Road."
These are now the most readily available source for the "Get Back" sessions material.

The Get Back/Let It Be sessions, "DDSI" Numbers Explained

In 1994 Doug Sulpy and Ray Schweighardt published a book that summarized The Beatles recording sessions of January 1969 for what was to become the "Let It Be" album. This book was called, "*Drugs, Divorce, and a Slipping Image*".

Within this book each chapter was devoted to a day of recording,Giving details of each day, every song or snippet of song is given a **unique sequential number**,
therefore the first song recorded on the 4th of January is number 4.1 … and the 12th song on the 31st of January is 31.12 within the book. **That reference number was the DDSI Number**.
This means that each recording within these sessions could be referenced easily, and for detail one can look at the book.
(Graham Calkin, JPGR, 2010)

In this list, where "DDSI Number" appears, **this is referring to Sulpy's 2006 "Complete Beatles' Audio Guide"**.

If it is needed, convertions tables between various versions of Sulpy's DDSI numbers can be found here https://getbacksessions.blogspot.com in "cross references", as well as a lot of other useful infos.
This is a truly gigantic site with every smallest detail one would want to know about the "Get Back sessions". The site also provides thousand of charts, maps and lots of other hyper- detailed info…

On 72 tracks from 3 January 1969 (captured partially -- in some cases entirely -- by both the A and B Nagras), a "Stereo version" has been obtained, combining the original A-roll sources(from "*AB Road*" and/or the Yellow Dog "*Day-By-Day*" discs) with B-roll tracks (from Unicorn's "*12 Days At Twickenham*") and keeping "A" on the left channel and "B" on the right.
"Stereo" does not imply that the entire track is now in stereo, as the A/B overlaps were sometimes quite brief. The impressiveness of the stereo effect varies from track to track. Voices and instruments also tend to wander a bit as recording personnel move around the soundstage.

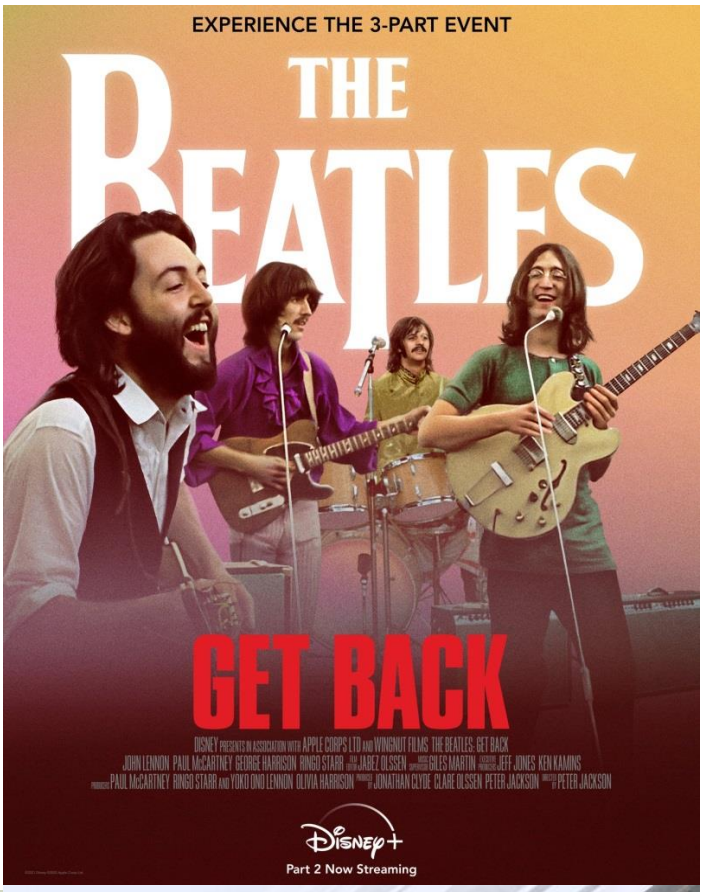
Peter Jackson's **Get Back** documentary



The Beatles: Get Back is a 2021 documentary series directed by Peter Jackson.
It draws from the sixty hours of film footage and over 150 hours of audio material originally captured by Michael Lindsay-Hogg in 1970.

The Beatles: Get Back consists of three episodes for a total runtime of nearly eight hours of Get Back/Let It Be Sessions' material. The final cut covers the 21 days in the studio with the Beatles as they rehearse for a forthcoming album, concert and film project, and climaxes with the rooftop concert

More than 120 songs can be heard in the soundtrack, unfortunately finer details are hardly traceable (or to be catalogued with satisfying precision) to a single and specific DDSI performance, since the soundtrack is a gigantic 'collage' composed by very frequent EDITS, often very short, and added rumours or sound adjustments, etc. for this, the amount of audio DDSI 'snippets' involved in **The Beatles: Get Back** could be over 3 thousands!, a real nightmare for future scholars. Moreover audio is not rarely unrelated or not in correct synch with scenes displayed on screen

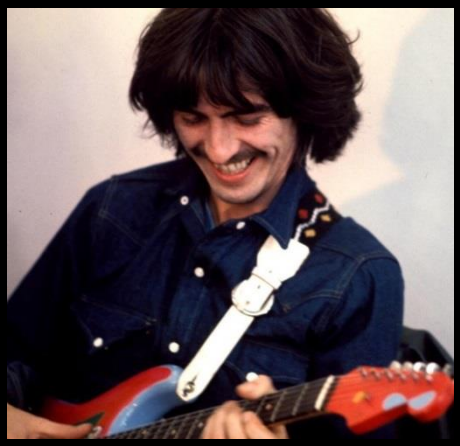
COMPLETE STUDIO & ROOFTOP RECORDINGS



1969

JANUARY 21 - JANUARY 31

THE GET BACK SESSIONS

Sessions resumed on 22 January when the Beatles moved to Apple Studio, in the basement of their Apple Corps building at 3 Savile Row. Multi-track recording began on that date and continued until 31 January.

Harrison brought in keyboardist Billy Preston to ease tensions and supplement the band's sound.

Also in this case, the majority of the sessions was captured by the film sound crew, on two A & B Nagra Tape Machines. One assigned to Camera A, the other to Camera B. (and C & D on 30 Jan 'rooftop concert')

Thus, again is possible to edit the sets of rolls together, creating ***uninterrupted*** *musical segments*

In 1992, planning a future release, Apple Corps hired Ron Furmanek with the aim of restoring the film and remixing the soundtrack in Stereo.
The original film was in Mono, but whenever 8-tracks where available, Furmanek mixed it to Stereo.
Unfortunately, this Furmanek's restored and remastered edition ([RS 92]*) remained unused.*

☞ NB: this list does not contains only *"A/B Road"* Nagra recordings, but considers hundreds of additional multi-track 😇 recordings: every Official and unofficial Release, "Let It Be" Albums, "Get Back" Acetates, Original Mono Movie, Stereo Remaster '92 Soundtrack, Anthology, Naked, Rockband and many other audio and video remixes

GET BACK / LET IT BE compilations

The ‘‘Let It Be’’ album, ultimately produced by Phil Spector, had several prior acetate compilations prepared by Glyn Johns:
Compilation 1, a quickly compiled rough acetate, never planned for release,
Compilations 2 & 3, were, respectively, ‘working’ and ‘definitive’ version of the album, scheduled for release (but always shifted) in Aug., Nov., Dec. 1969 and early 1970.
Compilation 4 never had a scheduled release date.
Glyn Johns compiled another Acetate with an odd selection: the so-called ‘*Oldies’ compilation* that may have been vaguely considered but never scheduled for release.

			Side One	Side Two
1	*30 Jan 1969* *Reference Acetate* Acetate with the first quick selection by Glyn Johns, the songs were only roughly mixed. The mixes and the compilation were prepared 24, 25, 27 and 30 January. The acetate were cut on 30 January, a few hours after the rooftop concert. Most of these takes were also utilised in subsequents ‘Get Back’ compilations, in several cases modifying and adding dialogues through the various editions. This compilation contains a unique ‘second’ version of ***Get Back*** (23.79), and ***The Walk***, both not appearing in any other Get Back compilation.		GET BACK (with false start) TEDDY BOY TWO OF US DIG A PONY I'VE GOT A FEELING	THE LONG AND WINDING ROAD LET IT BE DON'T LET ME DOWN FOR YOU BLUE (with two false starts) GET BACK THE WALK
1,5 ‘Oldies’	*30 Jan 1969* *Rock & Roll Oldies Compilation* On 30 January Glyn Johns mixed also some of the "oldies" jams and compiled and cut another acetate (this one, one sided), perhaps for an imagined second ‘album’. It also contains a ‘unique’ version of ***I've Got a Feeling*** (27.84) and the longest (circulating) version of ***Dig It*** , (more than 8 minutes).		I'VE GOT A FEELING DIG IT (version 2) SHAKE, RATTLE AND ROLL KANSAS CITY/MISS ANN/LAWDY MISS CLAWDY BLUE SUEDE SHOES YOU REALLY GOT A HOLD ON ME	
2	*2 May 1969* *Prototype Acetate* Generally this acetate is not considered, but it's actually the ‘working version’ of the compilation ‘3’ below. It was mixed 3, 4, 7 April and 2 May. The acetate was probably cut on 2 May. ***One After 909***, taken from the rooftop concert, were added as an opening. The jam called ***Rocker***, followed by a parody of ***Save The Last Dance For Me***, were inserted before ***Don't Let Me Down***. Glyn Johns prepared new remixes for all the other songs. ***Teddy Boy*** was shortened, ***Maggie Mae*** and a five-minute version of ***Dig It*** were also included. As regards to ***Let It Be,*** Glyn Johns chose (and remixed) a completely different take.		**ONE AFTER 909** ROCKER SAVE THE LAST DANCE **DON'T LET ME DOWN** **DIG A PONY** **I'VE GOT A FEELING** **GET BACK**	**FOR YOU BLUE** TEDDY BOY **TWO OF US** MAGGIE MAE **DIG IT** **LET IT BE** **THE LONG AND WINDING ROAD** GET BACK (reprise)
3a	*28 May 1969* ***Scheduled for release 1*** This ‘upgraded’ version of the ‘Prototype’ compilation above was the one scheduled for release. It differs from the second compilation in pieces of different dialog and, more notably, in different edits of "*Get Back*" and "*Dig It*". Prepared on 15 May, the acetate was compiled and cut on 28 May This time, to some extent, the song selection and the dialogue editing were somewhat planned but…despite the idea, the band could not agree whether they liked the finished product, especially as Johns selected takes with mistakes kept in. ***Dig It*** was shortened. For ***Get Back,*** Glyn Johns chose to insert the new Single remix/edit			
3b	*? 1969?* ***Scheduled for release 2*** This mysterious compilation may be the ‘refined’ version of the compilation above *Glyn Johns prepared new remixes for* ***Dig A Pony*** and ***I've Got a Feeling***			
4	*Jan / Feb 1970?* ***Final Compilation*** On 15 December, the Beatles again approached Johns to compile an album, but this time with the instruction that the songs must match those included in the film. This compilation was mixed and compiled on 15, 21 December and 5 January 1970 The final compilation contains the same takes and remixes as for compilation 3 (although with inverted channels). Glyn Johns omitted ***Teddy Boy*** (as the song did not appear in the film) and added ***Across The Universe*** and ***I Me Mine.*** Probably on 8 January, a new remix of ***For You Blue*** (with George's new vocals) was included, but The Beatles, once again, rejected the album.		**ONE AFTER 909** ROCKER SAVE THE LAST DANCE **DON'T LET ME DOWN** **DIG A PONY** **I'VE GOT A FEELING** **GET BACK** **LET IT BE**	**FOR YOU BLUE** **TWO OF US** MAGGIE MAE **DIG IT** **THE LONG AND WINDING ROAD** **I ME MINE** **ACROSS THE UNIVERSE** GET BACK (reprise)
LET IT BE	*May 1970* ***Spector's Official Album*** In March 1970, American producer Phil Spector was brought in by business manager Allen Klein to work on the album. Spector remixed all of the tracks, adding orchestra and choir to three tracks, and compiled the eventually released album – by now entitled **Let It Be**'. At this point there was nothing that reminded of the original **Get Back** album concept anymore.		**TWO OF US** **I DIG A PONY** **ACROSS THE UNIVERSE** **I ME MINE** **DIG IT** **LET IT BE** **MAGGIE MAE**	**I'VE GOT A FEELING** **ONE AFTER 909** **THE LONG AND WINDING ROAD** **FOR YOU BLUE** **GET BACK**

Songs' takes variations in Get Back compilations and related official releases

For simplicity, this list shows only the **major variations** since (even in case of same recording and DDSI take) every compilation (and every respective source) differs in subordinate details like mixing and/or editing/cutting dialogs, intros, outros, fade-in etc. etc.

The Get Back/Let It Be sessions, "DDSI" Numbers Explained

In 1994 Doug Sulpy and Ray Schweighardt published a book that summarized The Beatles recording sessions of January 1969 for what was to become the "**Let It Be**" album. This book was called, "*Drugs, Divorce, and a Slipping Image*".

Within this book each chapter was devoted to a day of recording, giving details of each day, every song or snippet of song is given a **unique sequential number**, therefore the first song recorded on the 4th of January is number 4.1 ... and the 12th song on the 31st of January is 31.12 within the book. **That reference number was the DDSI Number**. This means that each recording within these sessions could be referenced easily, and for detail one can look at the book.

(Graham Calkin, JPGR, 2010)

In this list, where "DDSI Number" appears, **this is referring to "*Complete Beatles' Audio Guide*",** by **Doug Sulpy, 2006.**

NO APPEAL AGAINST TRIAL TO DISSOLVE BEATLES

THE appeal against the trial to dissolve the Beatles partnership has been dropped by George, John, Ringo and the Apple Corps Ltd. This means that fifth partner, Paul, has got his way and a receiver and manager appointed by the court will look after Beatles affairs until the present partnership is ended legally.

In simple terms, Paul is one step nearer his entire independance from a partnership that started as a friendly happening and ended as a constricting monster in his eyes.

Paul has said that he first felt the limitations of being a Beatle, tied to Apple, when he brought out his album "McCartney." In advertisements he was angered by the inclusion of "An Abkco-managed company" after the words Apple Records, in connection with "McCartney."

Resentment grew

His resentment grew, because he and wife Linda had done everything and Abkco, Allen Klein's company, had nothing to do with it. Yet here it was, in Paul's way of thinking, taking some sort of credit.

The question went through Paul's mind for a long time: "How do I get out?" He took legal advice and found that a court action was the only way. He went ahead.

During the hearings some nasty things were said against him by other Beatles. He didn't like them, because Paul has always been the Beatle who tried to be fitted. Now he has cooled down and says he has nothing against John, George and Ringo. And he's sorry the ending had to come in a court of law, instead of maybe in a "Magical Mystery Tour" sort of explosion!

But more and more the famous four are leaving behind the world of fantasy they lived in as Beatles and becoming realists and individualists. It must be a great comfort to them to know that they can make it on their own. They don't seem to need the Beatles tag any more, although they will never lose it.

Is it good thing?

It is probably a good thing for the music business that the Beatles are now no more as a group. We have four top attractions, instead of one. If financial and contractual doubts hadn't brought the legal parting, artistic ones would have. As far back as "Abbey Road" there was the feeling that the Beatles were drifting apart musically, and everyone except Ringo seems to have voiced opinion that he would quit the group.

Now the appeal against the action to break up the Beatles partnership has been dismissed Paul is on his way to "getting out." And the others are faced with an alleged bill for some £186,000 legal fees, which the judge ordered them to pay after the first High Court hearing of 11 days.

What happens next? The court will now look into how Paul can terminate his partnership with the other partners in the Beatles. And in the meantime, Mr James Douglas Spooner, a chartered accountant and "company doctor" has been appointed by the judge, Mr Justice Stamp, to act as manager and receiver of the group's multi-million-pound business immediately. He would not permit the wish of John, George, Ringo and Apple Corp. Ltd. for American Allen Klein to continue as manager of their business affairs.

None of the Beatles was in court for the five minute hearing on Monday at which the appeal was abandoned.

In announcing the decision, Lord Justice Russell said he hoped Paul and the other Beatles would reach an amicable and sensible agreement and showed himself to be with it by ending: "My only disappointment is that I am not unable to make a joke about preserving the Status Quo — which is the name of another pop group!"

THE BEATLES

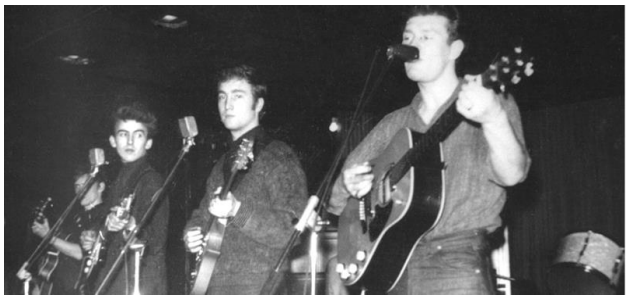
1961 BEATLES & TONY SHERIDAN basic official discography

The Hamburg 1961 recordings were released in many countries in unnumbered releases, often 'repacked 'over the years or inserted in compilations, often along wth other bands. The following list contains the most important.
First release for a given song (or song's version) is highlighted in yellow.



Playing musicians:

The Beatles
The Beatles with Tony Sheridan
Tony Sheridan & The Beat Brothers
The Titans
The Swallows

> *My Bonnie* has three significant EDIT variants (along with the 'medley' version and the **Anthology** version)
> **ATCO** releases presents two peculiar variations: *Sweet Georgia Brown* has a 'vocals variant' (Sheridan re-recorded the vocals in 1964) and *Ain't She Sweet* has an overdubbed 'added drums ' variant (oddly **this** was the version chosen for **Anthology**). **ATCO** 'reworked' also *Take Out Some Insurance* and *Nobody's Child*
> On numerous releases *Take Out Some Insurance* were listed as *If You Love Me, Baby*.

THE BEATLES AND FRANK IFIELD

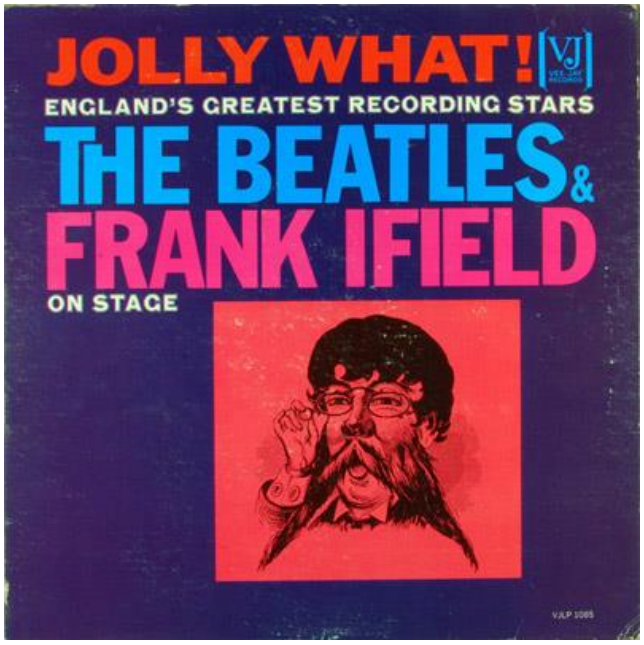
The tremendous surging influence that has of recent months been felt by the European Recording artists has never before been equaled as in this album. Without any question THE BEATLES and FRANK IFIELD are the most popular recording stars in Europe. THE BEATLES are considered a phenomena on the American scene in that this is the first time that a European base recording act has so captivated the American public from both TV and recording standpoint.

It is with a good deal of pride and pleasure that this copulation has been presented.

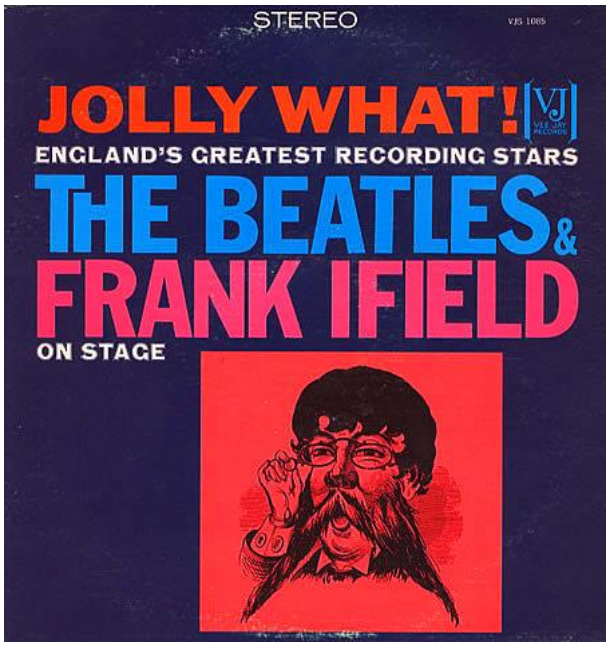
Please Please Me and *Ask Me Why* appear both in Stereo or Mono (depending on the album version)

From Me To You and *Thank You Girl* appear only in in mono.

The first release (February 1964), called **JOLLY WHAT! ENGLAND'S GREATEST RECORDING STARS: THE BEATLES AND FRANK IFIELD ON STAGE**, had this cover:



Mono



Stereo

The second release (October 1964), called simply **THE BEATLES AND FRANK IFIELD ON STAGE**, had this other cover:

I CALL YOUR NAME edits/remixes variations

I Call Your Name's 'backtrack' was completed in seven takes. On take 7, John's second vocals and Ringo's cowbell were overdubbed.
Alas, it was realized that Take 5 had the best solo, so, in producing the Mono masters, take 5's solo was edited into take 7
For the Stereo masters, besides take 5's solo, take 5's intro was also edited in.
While following the same general scheme, UK and US mixes have all different edits. US Stereo remix (RS1) also has more reverb.

		Remix	First Release	Editing Variations
MONO		RM1	SECOND ALBUM LP 1964 	SOLO Take 7 — Take 5 — Take 7 0:00 ..... 1:07 ..... 1:26 ..... before "Name" — after "Can't Take It"
		EDIT RM1 (#2)/RM2	LONG TALL SALLY EP 1964 	SOLO Take 7 RM1 (#2) — Take 5 RM2 — Take 7 RM1 (#2) 0:00 ..... 1:04 ..... 1:26 ..... before "I Call" — after "Can't Take It"
STEREO		RS1	SECOND ALBUM LP 1964 	INTRO — SOLO Take 5 — Take 7 — Take 5 — Take 7 0:00 ..... 0:08 ..... 1:05 ..... 1:26 ..... before "Call" — before "Call" — after "Can't Take It"
		EDIT RS1 (#2)/RS3	ROCK'N'ROLL MUSIC LP 1976 	INTRO — SOLO Take 5 RS1 (#2) — Take 7 RS3 — Take 5 RS1 (#2) — Take 7 RS3 0:00 ..... 0:11 ..... 1:06 ..... 1:26 ..... before "But You're Not" — before "Your Name" — after "Can't Take It"

The differences between the various versions are small and sometimes hardly noticeable but each variant has a peculiar EDIT in the alternation between take 7 (with cowbell and dubbed voice) and take 5 (without any overdub) thus in all the Stereo versions, the initial part is without cowbell

> *If I Fell* Mono remix has John single vocals intro

> *And I Love Her* US Mono remix RM1 has Paul's vocals mostly **not** double-tracked . This same remix also appears in **Something New** Mono (illustrated in page beside). It was restored in 2014 for the Mono versions of "The US Albums".

> *I'll Cry instead US* Mono remix 'RMx take6+RMx take 8 EDIT#1', the "long version", is the first and longer edit of takes 6 and 8 (2:04), this is the one sent to Capitol and United Artists to be released in their Mono Albums, so, this same remix also appeared in **Something New** Mono and, reprocessed, in **A Hard Days' Night Original Motion Picture Soundtrack** Stereo LP. It was restored in 2014 for "The US Albums" Box.
In all the succeeding *I'll Cry instead*'s remixes , namely, the Mono UK [RMx take6+RMx take 8 EDIT#2] and the Stereo UK/US [RSx take 6+ RSx take 8] the song were re-edited and shortened to 1:44

April 13 1965, EMI: Recording the backtrack of takes 1-12 (Tracks 1 and 2).
On take 12, the'best' take, vocals were overdubbed (John + Paul & George backing) on track 3.
Vocals were doubled (again John + Paul & George backing) on track 4, together with Ringo's tambourine. A Rough Mono mix was made (RM1)

April 18 1965, EMI: 3 Mono remixes, RM2, RM3 and RM4 (RM4 'best'), were made for use in the film, and 1 in stereo (RS1). They all went unused

April 22 1965, Twickenham: Filming *'Help!'* (using RM4 as 'soundtrack')

May 24 1965, CTS: It was decided that vocals tracks needed to be remade. CTS Studios had 3-track tape machines, so EMI track 1 and 2 (the instrumental backtrack) were reduced to one track to left 2 tracks free for overdubbing the new vocals. A new Mono remix (RMx) was created then to be used in the film

June 18 1965, EMI: Final Mono (RM4#2) and Stereo (RS2) remixes for the LPs.
For the Mono remix George Martin decided to edit the intro, joining the old vocals intro and using the new CTS vocals for the rest of the song.
For the Stereo remix, CTS recording had the instrumental backtrack on one track (practically in mono), so, for the Stereo remix, George Martin was forced to use the EMI's four track recording (with 'old vocals')

In addition to the described above 4 'historical remixes' there exist further 'modern' remixes, all in Stereo, first of all the **CD 1987 remix**, other remixes are the **1993 PROMO**, the fragment in **Anthology DVD** (2003), the **DVD 2007** Video remix and the brand new remix for **"1+"** (2015).
In all these 'modern' remixes, the vocals part is always the 'old vocals'.

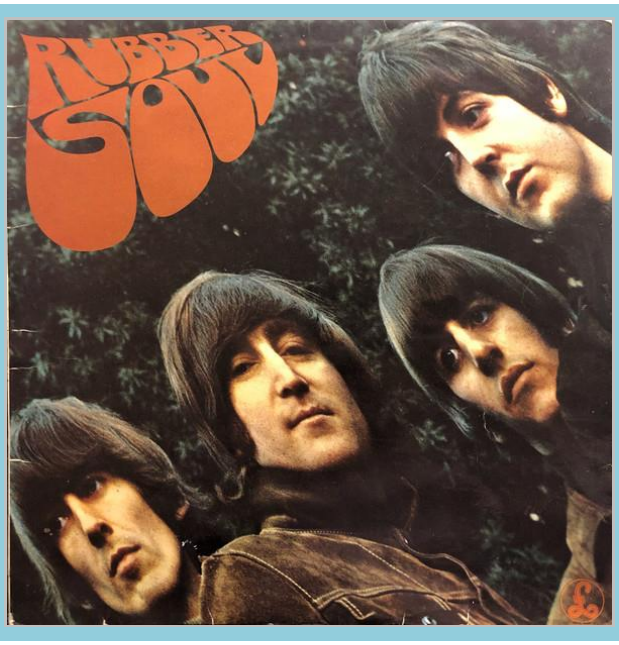
The withdrawn MONO RUBBER SOUL ''LOUD CUT''

The "Loud Cut" is the very first pressing of the **UK Mono Rubber Soul**, stopped after a short pressing run.

George Martin wasn't satisfied with the first cut of the album which sounded way too compressed, and thus, after few days, he decided to halt production and re-cut the master.

'Loud-cut' pressings had the matrix numbers XEX 579-1and XEX 580-1.
When the production resumed, the second pressing run started with matrix XEX 579-4 / XEX 580-4

Despite the myth (and the name) the ''Loud Cut'' wasn't cut particularly louder; it was just more compressed and, beside sounding somewhat substandard (but not even as terrible as they say, considering that a lot of people hear no difference), there was a risk that this could have produced distortion on cheaper turntables



US STEREO RUBBER SOUL ''DEEP ECHO''

A small number of circulating copies of **US Stereo Rubber Soul** presents an unusual 'echoed' sound, the reason is that they were mastered differently, with an added layer of reverb to all the songs of the album.

This became to be know as the "Deep Echo", "Echo Enhanced", ''East Coast Mix'' or the 'Dexterized' version of **US Stereo Rubber Soul** (from Dave Dexter Jr., the executive of Capitol supposed originator of this alternate mastering)

In ''The Beatles Story on Capitol Records Part 2'', Spizer points out: "*Although most of the stereo Capitol pressings of the album sound similar to the stereo British LP, some of the Capitol discs were pressed with metal parts originating from a master that is noticeably different.*
These records were manufactured from a master cut in New York.
All the songs have additional reverb that is not present on the other Capitol pressings or on the British discs. "

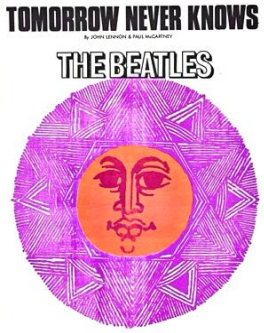
Alternate remix of TOMORROW NEVER KNOWS in the withdrawn first press of MONO UK REVOLVER



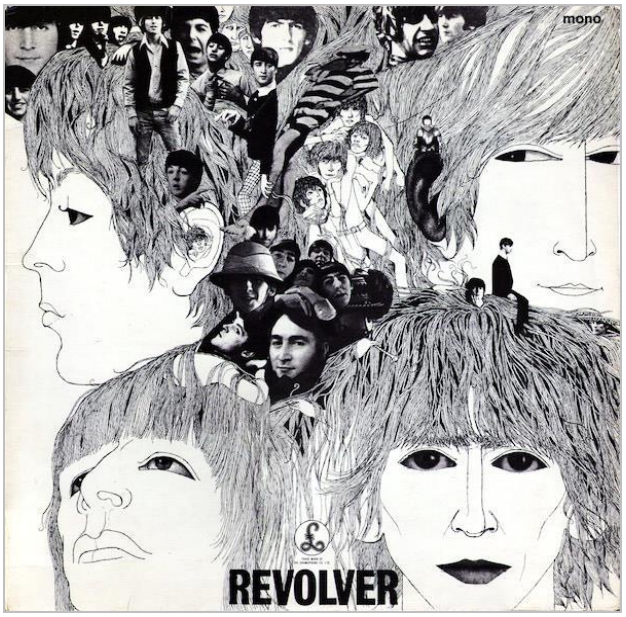
A limited number of **UK Mono Revolver** album include a rare version, with a different remix, of *Tomorrow Never Knows* [RM11]: it's the quickly withdrawn very first pressing.

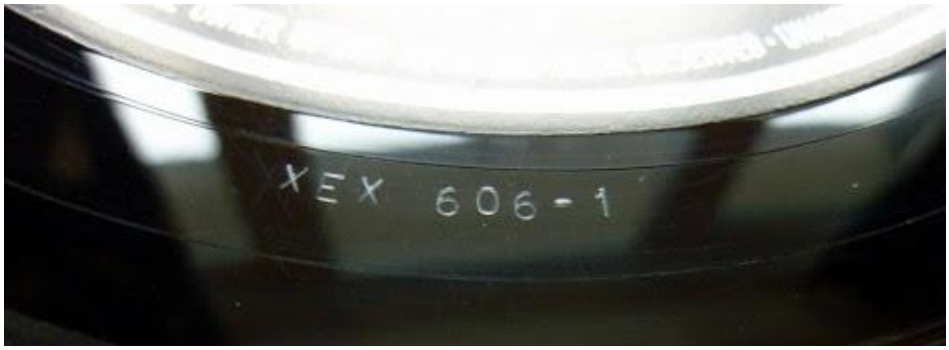
This has a matrix number (on side 2) of XEX 606-1 whereas the standard presses have XEX 606-2 and beyond.

After the first day of pressing it was decided to replace this remix of *Tomorrow Never Knows* [RM11] with the 'standard' mix [RM8]: the production was momentarily stopped as the new masters were cut and the pressing plates were replaced.

It is not known why George Martin changed his mind and decided to use the older 'best' Mono Remix RM8

RM11 had the vocals louder, the backward guitar solo without ADT (and missing the final guitar phrase), different effects and a longer fade-out with a prominent piano in the end.





1966 A COLLECTION OF BEATLES OLDIES remixes variations

A Collection of Beatles Oldies was the Beatles' first greatest-hits, it contains (a part for *Michelle* and *Yesterday*) 13 songs from singles, not available on any Beatles LP, and *Bad Boy* that was unissued in UK.

The Stereo version is more interesting, several songs were remixed or released in Stereo for the first time (at least for the UK market)

She Loves You
First UK fake-stereo version. Capitol's **Second Album** and German **Beatles Beat** featured a different Fake-stereo version

From Me To you
First UK Stereo version. Previously released uniquely on German **Beatles Beat**

We Can Wok It Out
First UK Stereo version [RS2]. Another early Stereo remix [RS1] was previously released in **Yesterday And Today**

I Feel Fine
First ever Stereo version. German and Dutch Stereo LPs as well as US **Beatles '65** featured a fake-stereo version

Day Tripper
First UK Stereo version [RS2]. Another early Stereo remix [RS1] was previously released in **Yesterday And Today**

Paperback Writer
First ever Stereo version

I Want To Hold Your Hand
First UK Stereo version. Two other different Stereo remixes were created prior to this '1966 remix', one (the '1965 remix') was released only in Germany, the other (the oldest, RS17 '1963 remix') was released only in 1977, uniquely in Australia

1967 I AM THE WALRUS Mono variants

RM23

Mono remix 23 (RM23) was the first created 'official' versions of I Am The Walrus, it was the result of a laborious EDIT, which constitutes the 'basic' Mono Master of the finished song. This remix however still has an imperfection: an 'extra' bar before "...*Yellow Matter Custard*..." (due to the studio correction of a mistake by John in the 'backtrack', as heard in **Anthology**). This mono mix will be delivered to Capitol who will release it on the US Single **Hello Goodbye** (before being notified of the ''extra'' bar).

EDIT RM23

A week later, the 'correct' single, with the 'extra' bar cut (EDIT RM23 # 1), was released in UK. This remix became the standard Mono remix and will be used also for the double **MMT EP**, the **Film**, the **Mono MMT CD (Remastered 2009)** and many other releases.

EDIT RM23#2

For the inclusion in the **US Mono MMT** album, Capitol also did its 'EDIT', cutting the 'extra' bar (EDIT RM23 # 2). Given the limits of the tecnology of the time, the two EDITs do not sound exactly the same (Capitol's engineers cut a few hundredths of a second too long) ... anyway, from now, all subsequent versions will have the 'extra' bar cut (with the exception of the 'reconstructed' Stereo version of **US RARITIES** (1980) and another botched attempt in 2011 in the **Target Mono Single**, described below.

SINGLE 2011

In 2011 Capitol released (through *Target* retail corporation) the reissue of the vinyl single with a cheap attempt to restore the 'extra' bar, unfortunately it was done in an amateurish way, with disastrous results: John's "Ye ... brutally cut, but still partially audible

> The main distinguishing feature of every I Am The Walrus' Mono remixes (compared to the stereo ones) is that they have two points where Ringo's drums 'disappear': the first at about 0:36, the second at 1: 18

1967 I AM THE WALRUS Stereo variants

EDIT RS6/7

The first Stereo remix, delivered to Capitol, was a 'montage' of two remixes: the first part of the song was the Stereo remix 6 (RS6), the second part was a 'fake stereo' version of the remix Mono 22 (RM22) called RS7.
This Capitol 'hybrid' version Stereo/Fake Stereo (RS6/7) has the peculiarities that it starts with 4 piano beats, and has the "left" drums that (as for the mono remixes) disappears for a few moments, after "I'm crying "at 1:18 ...

EDIT RS25/7

In UK, and at the last moment before going to press, it was decided to redo the Stereo remix from scratch using a new Stereo remix (RS25) as the first part of the song, and the usual 'Fake Stereo' RS7 as the second part. All beautiful... but they forgot to 'shorten' the 6 beats piano intro, and mockingly, this version is what will become the Stereo official standard of *I Am The Walrus* (RS25/7)

RS6/7?

German Hörzu released the double EP and then the MMT album with a variant of the US Stereo remix: the intro is not cut (it has 6 piano beats, as for the UK EP), but has drums that disappears at 1:18 (as for the US Stereo remix)

EDIT R 80

In 1980 Capitol (for its LP **US RARITIES**) created a Stereo 'reconstructed' version of the 'imperfect' Mono remix with the extra bar (US Single), 'picking' the extra bar from RM23

MMT VHS (EDIT RS25/RM23?)

In 1988 a new remix was made by George Martin for the **MMT Video** release, with the piano intro necessarily 'cut' and 'reduced' to 4 beats (to match with the film / video), in this new remix the second part of the song is in true mono, instead of Fake Stereo

MMT DVD

In 1997, the standard Stereo remix RS25/7 was used for the **MMT DVD** release, (the piano intro was cut to 4 beats)

ANTHOLOGY DVD

In 2003 a new Stereo remix was created for **Anthology DVD**, finally in 'True Stereo' from the beginning to the end of the song and,-unique among the post 1971 remixes-, it has drums that disappears at 1:18

LOVE

In 2006 a new 'True Stereo' remix was created for **Love**.

ROCKBAND

In 2009 a new remix was created for the music video game **Rockband**, this remix is similar to the standard one but almost in mono

MMT DVD 2012

Finally, in 2012, for the Blu-Ray release of MMT, Giles Martin created yet another new 'True Stereo' remix, also this with a 4 beats piano intro

> The part recorded live by John from the radio (King Lear) was a major obstacle to the creation of a 'True Stereo' remix because it was irremediably 'merged' with the backtrack. For **Anthology DVD**, in 2003, they resorted to a vinyl with the original BBC broadcast. Shortly thereafter, however, they discovered that the BBC still held the original tapes which they hastened to acquire for use in **Love** and **MMT DVD / Blu-Ray 2012** "True Stereo" remixes

1967 MAGICAL MYSTERY TOUR FILM Video remixes variations

The original Mono soundtrack contains a unique early remix of Magical Mystery Tour song.
The first home-video Stereo release (VHS 1988) has all tracks 'remastered' and four tracks also newly remixed by Ron Furmanek (RS 88)
The DVD 1997 returns back and oddly presents a badly mastered stereo 1987 soundtrack (possibly even a vinyl needledrop).
The 2012 DVD/Blu-Ray release, opportunely, contains all new Stereo remixes (created by Giles Martin)

1968 ACROSS THE UNIVERSE recording process

The details of the *Across The Universe* recordings have always been a difficult element to analyze; the nebulosity of the official data and the abundant number of official and unofficial circulating versions -distributed in more than 2 years- made it almost impossible to extricate oneself from the countless hypotheses: actually all scholars contradict each other, or they get confused, wrong or imprecise on some details.
In 2018, finally, with the booklet of the **White Album 50th** other details were made public; some are crucial infos that contribute greatly to the recomposition of this enigmatic puzzle represented by the recordings sequence and elements of *Across The Universe* (in its various versions). Some smaller details still escape and some fringe doubts remain, but in general, the sessions of *Across The Universe* can today, and comprehensively, be summarized as follows:

Throughout the mixing of RM2 and RS2 birds effects were added (live) to the existing (and full) four tracks, using an external tape
In Naked remix, 'Girls' track volume was turned down
In Naked remix, Tamboura has abundant ADT and echo effects added

1968 WHAT'S THE NEW MARY JANE versions and variations

Distinguishing the various versions of this chaotic but not unplanned song is an almost impossible undertaking, and even Lewisohn and Winn being faced with nebulous and contradictory data, they have not been able to solve all the uncertainties: the main problem is to fit the list of attested recordings (and the acetates obtained) by Lewisohn, Barrett and Winn with the various bootleg versions published, often characterized by unknown sources, arbitrary and highly variable names/assignments such as 'RS2', 'Edit', 'Single', 'Sparse mix', 'Dense mix', 'Intermediate mix' etc. ...

The recording history of *WTNMJ* begins with the so-called "Kinfauns Demo", recorded with only vocals, acoustic guitars (and tambourine) in George's house, in which you can hear how the structure of the song was already perfectly delineated.	**THE BEATLES** **Super Deluxe Edition 2018**	
In the EMI studios, John, Yoko and George (also present Mal Evans), decided to record *WTNMJ*: this time with the addition of a long 'coda' of 'experimental' music. With George on acoustic guitar and John on piano, they recorded four takes: the first was 2:35, the second 3:45, the third was a false start, and the fourth (final) take reached 6:35.	**THE BEATLES** **Super Deluxe Edition 2018**	
Two Stereo remixes were created: (RS1) and (RS2). No copy were created or taken, however, in 1982 a copy of one of these remixes, characterized by the overdubs track almost inaudible and a 'stopped' finale (5:45), were realized by John Barrett and later released in the bootleg "Another Session Plus".	**Bare It All** (MasterJedi)	
Three new Stereo remixes were created: (RS1), (RS2) and (RS3). These remixes are characterized by song's full length (6:40) and John's exclamation in the finale: "*Let's hear it, before we get taken away!*" and, again, the track with overdubs with volume almost turned down to zero A copy of all three remixes were made and delivered to John. These remixes were subsequently released, respectively in the bootlegs "**Strawberry Fields Forever**", "**Miscellaneous Tracks**" and "**Unsurpassed Master 4**", the differences between the remixes are minimal and they could even be copies of the same remix (in any case still from 11 Sept 1969) but the slight differences are confirmed by Lewisohn: *"only John's lead vocals placed at different points in the stereo"*	**Strawberry Fields Forever** (Condor)	
	Great Scott! It's... The Beatles (MasterJedi)	
	The Beatles Deluxe Edition (Purple Chick)	
It's a full length remix (6:40), with audible overdub track, although in certain points this increases cacophony. In the finale you only hear "*Let's hear it-*"	**Last Laquers** (MasterJedi)	It's the longer remix (7:05), it has audible overdub track and simultaneous 'live' overdubs from John, Yoko, Mal Evans and others present.		
This short 'rough' remix (2:30) sounds like a 'slice' of RS4: it begins abruptly at a casual point , skipping the first two minutes. After one minute there's another minute of cut before connecting to the minute and half of the final 'ringtone'		
This Mono remix is essentially the 'overlap' of the two remixes RS4 and RS5 (combined with various editing and 'displacement' of clips of the two remixes) The remix obtained was in turn 'edited' and divided into the two sides of the Acetate: Side A 4:04, Side B 1:53	**Do You Want To Have A Listen…** (No Label)	
Published in various bootlegs as early as 1972, this "short" Remix is an EDIT of RS4 and RS5 and could be the final product of these 26 Nov sessions: the B side of the programmed single. But finally, this official release of *WTNMJ* was also canceled.	**Complete Acetate Collection** (Misterclaudel)	
The last remix of WTNMJ was made in 1984 by Geoff Emerick, who started working on WTNMJ in order to insert it in the scheduled album "**Sessions**", creating a 6:05 remixed and edited version	**Turn Me On Dead Man** **The John Barrett Tapes** (Vigotone)	
Early version	**Sessions** **(A Collection Of Unreleased Albums)** (Misterclaudel)	
Final "Sessions" version	**Sessions** **(A Collection Of Unreleased Albums)** (Misterclaudel)	
Anthology version	**ANTHOLOGY 3 Itunes**	

1968 I' M SO TIRED 'Monitor Mixes' Sources comparison

Recordings of what appear to be a 'test' mixing session of *I'm So Tired* began to circulate in 1991.
The tape contains several similar (and alternate) rough mixes and playbacks, some repeated.
Over the years these recordings have appeared in several bootleg, bettering in quality and completeness.

Purple Chick's **'White Album Deluxe'** (2007) contains the enhanced and pitch corrected version of **Control Room Monitor Mixes** (YELLOW DOG 1993).

Arrive Without Aging (VIGOTONE 1993) comprises only segments 'b', 'c' and 'a' (the "Isolation 7-8 Remix"), hence the comparison below is between original **Control Room Monitor Mixes** and the later **The Ballad Of John And Yoko** (IDOL MIND 2012)

The illustration uses *Purple Chick*'s remixes' 'naming'.

a: ''Isolation 7-8'', *TBOJAY* includes only the final 15 seconds of this remix

b: George comment stops on "*second time of so…*".

c: In succeeding short interrupted piece, tape stops on John's "*I haven't…*"

> The segment **b-c** are repeated twice in *TBOJAY*

d1: In *CRMM* is followed by **d**2 and **e** in sequence

> This segment is repeated twice in *TBOJAY*; one is followed by **e**, one by **d**2

d2: tape rolled back

e: short interrupted piece, tape stops on John's "*I ha…*"

f: George comment stops on "*second time of…*".

g: longest interrupted piece, unique of *CRMM*

x: fragment of Organ, unique of *TBOJAY*

VHS 1987 contains mostly Stereo remixes, all [R87] 'based' (CDs 1987) but also some Fake Stereo (*Only A Northern Song* and *It's All Too Much)* and *Nowhere Man* with the 1965 Remix

The DVD 1999 offers brand new Mono and Stereo remixes, but unfortunately, all songs, except *Only A Northern Song*, are slightly speeded up, and three songs: *Only A Northern Song*, *When I'm 64* and *Baby, You're A Rich Man* are omitted from Mono Audio track

The DVD 2012 contains the newly remastered 1999 remixes, finally with all songs at correct speed (apart from *Only A Northern Song*, slightly slower). There are also new Mono remixes of *Only A Northern Song* and *When I'm 64* . *Baby You're A Rich Man* Mono remix is still absent from Mono Audio track

All VHS 1987remixes can be found on "**Sea Of Green**" (RED ROBIN 1996), at correct speed.

DVD 1999 Mono Remixes are not circulating on bootlegs.
DVD 1999 Stereo Remixes of songs related to Sgt Pepper's can be found in "**Sgt. Pepper Massed Alberts Edition"** (MASSED ALBERTS 2018).
The other songs were never released on bootleg but DVD transfers are circulating amongst collectors.

It was decided that the 'soundtrack' album must match the Movie:
Teddy Boy was dropped and *I Me Mine* and *Across The Universe* were inserted, but this version of the album didn't get as far as the previous compilation, since the Beatles, already rather uninterested, rejected it again.

With Phil Spector everything changed: there was nothing that reminded of the original "Get Back" album concept anymore. Spector put a lot of work into **Let It Be**, for many songs he took different takes as well as remixing, shortening and editing like he felt he had to.

For simplicity, this list shows only the **major variations** since (even in case of same recording and DDSI take) every compilation (and every respective source) differs in subordinate details like mixing and/or editing/cutting dialogs, intros, outros, fade-in etc. etc. Glyn Johns' rough remixes are listed in parentheses.

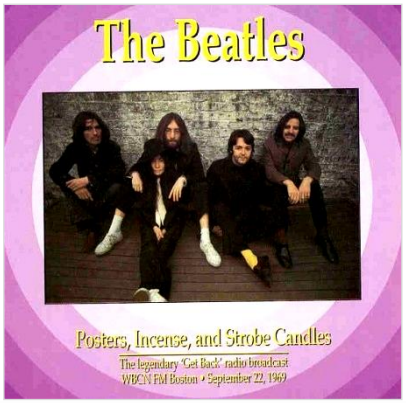
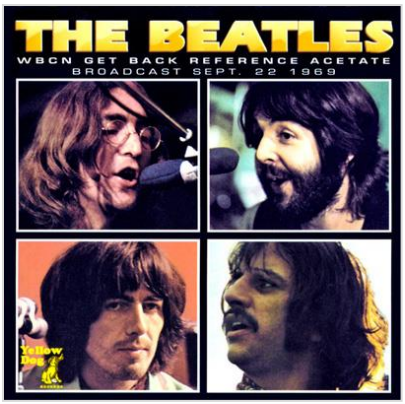
1969 GET BACK COMPILATION '1 WBCN'

In summer 1969, copies of the acetate with 'compilation 1' made their way to America and soon tape copies were aired by a number of locals radio stations. The WBCN radio broadcast was recorded by a listener and in the early seventies became the source for several vinyl bootlegs . **Kum Back** was the first (1969). Two other significant early releases were **Get Back To Toronto** (I.P.F. Records) and **Get Back** (Lemon Records). These early vinyl releases do not feature any of DJ dialogue from the broadcast.

More recently (1993) the ''listener's reel tape'' was the source for the Vigotone's CD **Posters, Incense and Strobe Candles** (including DJ comments and commercials from the original airing) and **WBCN Get Back Reference Acetate** from Yellow Dog (de-clicked and de-noised and including only short pieces of the DJ comments).





1969 GET BACK COMPILATION '1 ACETATE'

In 2012 Idol Mind Productions releases **Untouched - Off Elektra Acetate**, sourced from an acetate containing compilation 1 (the 'Elektra acetate': '*An extremely rare audio source directly ripped from the Elektra Records acetate disc named "UNTOUCHED", which the producer of Let It Be had as a referential material'*). The biggest problem with this source is that the acetate is in fairly poor condition and very noisy so this release features two CDs, one with the "Raw Version" and one de-clicked and de-noised.

While the Disc 2 does sound better, not surprisingly, within a week of the release of the **Untouched** discs, there were already two upgrades:

Untouched (Revision A) (PetSounds Productions)
Derived from the raw source on Disc 1 of **Untouched -, Off Elektra Acetate.** Disc 1 contains a newly de-clicked, phase-corrected, and speed-corrected version. Disc 2 has the same tracks de-noised and the three missing parts in them patched up from other sources

Get Back: The Elektra Acetate (Helter Skelter):
Also derived from the raw source on Disc 1 of **Untouched -, Off Elektra Acetate.**
In this release no noise reduction has been used, ''*but instead painstakingly de-clicked, de-popped, and de-crackled each track one-by-one, putting the integrity of the music above anything else*''. All of the stereo elements that were missing from this acetate from the Yellow Dog disc were also added. The tracks were pitch, phase and level corrected, as well as un-doing the peak limiting applied to the original disc.

In 2019 MasterJedi released the CD-R **The Beatles - The WBCN Acetate**, derived from **Untouched - Off Elektra Acetate** (Idol Minds) with edit pieces from **Posters Incense and Strobe Candles** (Vigotone).
Great care was taken to align both sources in speed, frequency response and phase response. This permitted patching the missing pieces back into place, It also allowed the severe damage which occurred to the acetate to be meticulously repaired.
The Intro to *Get Back*, which was also missing from the Idol Minds source, was patched from the Vigotone source, The material is duplicated twice, once with no click removal, and again using a combination of 2 different click removal programs (Adobe Audition CS6 and ClickRepair). The median of both outputs and the original ensured that only those clicks that both programs were in agreement on were removed.

1969 GET BACK COMPILATIONS: '1 TAPE' AND 1,5 'OLDIES'

In 1991, some of Compilation 1 tracks surfaced along with a new set of songs; the "Oldies" compilation (Compilation 1,5 Oldies), from what appeared to be a tape source, on the CD release **Celluloid Rock** (Yellow Dog). All tracks are in Mono (where as the WBCN acetate is in Stereo). In 2000, these recordings appeared again (and still in Mono) on the CD ***Get Back: John Barrett's Reel*** (label unknown), in slightly better quality and featuring longer intros and outros.

It's highly dubious this is actually from a Barrett tape (all known Barrett mixes are stereo. These are mono) and both releases might even be sourced from an acetate, but probably they are mono tape dubs of reels E69738 and E69739: perhaps, somewhere down the line, someone made a fold-down mono copy and that's what circulates today.

Six 'Compilation 1' tracks (Compilation 1 TAPE A) are present either in **Celluloid Rock** and ***Get Back: John Barrett's Reel***

Three 'Compilation 1' tracks; *Teddy Boy*, *Two Of Us* and *Dig A Pony* (Compilation 1 TAPE B) appear only in **Celluloid Rock,** with a 'fake stereo reverb effect' applied. In addition, on **Celluloid Rock** also appeared the longest circulating excerpt of *Dig It*.

The five jams contained in "Oldies" compilation also appear, often from various other sources (*Movie soundtrack, Boardroom tapes, Barrett tapes*), in numerous other bootlegs, but *I've Got A Feeling 27.84* (with false start) appears exclusively on "Oldies"

In 2016 MasterJedi released the CD-R **Rockin'Reel**, derived from **Get Back - John Barrett's Reel** with a small patch from **Celluloid Rock**. Glitches and distortion repaired.

Only tracks from **Get Back - John Barrett's Reel** (Compilation 1 TAPE A and Compilation 1,5 Oldies) were included

The three 'fake stereo' **Celluloid Rock**'s 'Compilation 1' tracks '*Teddy Boy*, *Two Of Us* and *Dig A Pony* (Compilation 1 TAPE B) were all left out.

1969 GET BACK COMPILATIONS: '2 WKBW' AND '2 OPD'

In September 1969, an US Radio (WKBW in Buffalo) broadcast a tape of this compilation. The tape was sourced from an early production acetate that leaked out of Apple, and, as it happened before, in short time it fell into the hands of the bootleggers.
Unfortunately this tape features only one channel of the stereo image.

Few months after the broadcast, two bootlegs surfaced that contained the same recordings that was used for the WKBW broadcast. The first release was **O.P.D.** (label unknown) and featured the entire acetate. The second release was titled **The Silver Album Of The World's Greatest** (Jarris Records) which contained several songs but not the entire acetate. Since both bootlegs feature none of the DJ dialog heard in the broadcast and feature only one channel of stereo, the bootlegs can surely be sourced directly back to the tape used by WKBW.

In 2003, the original WKBW broadcast surfaced on a bootleg CD-R titled **WKBW Exclusive! The August 1969 Broadcast Of Get Back** .
The CD-R features a listener's off-air home recording of the WKBW broadcast.

For a long time it was commonly believed that Glyn had made only three compilations of Get Back, so this represents an unique (fourth) compilation; the prototype of Compilation 3 . Not even Mark Lewisohn or John Barrett make note of it. Recordings of this acetate appear to have not surfaced anywhere else other than the three 'Mono/ One channel' releases noted above.

This second compilation differs from compilation 3 in that there are a few tidbits of different dialog and, more importantly, different edits of "*Get Back*" and "*Dig It*".

1969 GET BACK COMPILATION ‘3 ACETATE’

This compilation, unlike the first two compilations, was never broadcast; it surfaced in the 1970s from both an acetate and a tape source

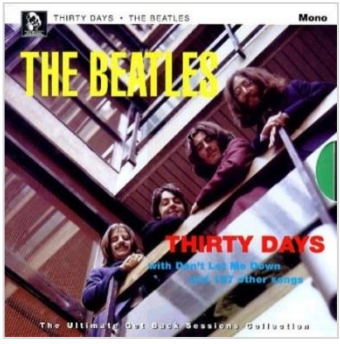
The first bootleg appearance of ‘Compilation 3’ was in 1974, followed, over the years, by several quality improved releases.

In 1991, Yellow Dog Records introduced a ‘de-clicked’ and ‘de-noised’ CD version of the acetate titled **Get Back and 22 Other Songs**.

1969 GET BACK COMPILATION ‘3 TAPE’

From 1986(?) several vinyl releases featured the tape-sourced version, often accompanied by a very high quality package.

In 1994, some of the tape-sourced ‘Compilation 3’ tracks made its CD debut on **As Nature Intended** (Vigotone)
In 2000, ‘Compilation 3’ surfaced in a complete form as a bonus disc in the massive 17 disc Get Back-Sessions Box **Thirty Days** (Vigotone)

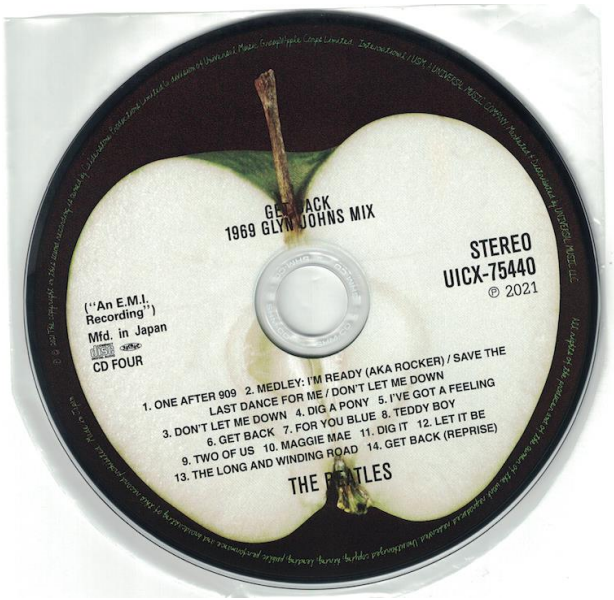


In 2019 MasterJedi released the CD-R **All I Want Is…** derived mostly from **Thirty Days** Disc 17 and supplemented by **Get Back and 22 Other Songs** which was more complete in a couple spots.

1969 GET BACK COMPILATION 3’b’

The 2021 **Let It Be Special Edition** box set’s CD 4 should have been the first official release of the Glyn Johns’ “1969 Get Back mix”. Actually, the CD 4, labelled as “**Glyn Johns’ 1969 mix**”, contains mainly the **Glyn Johns’ 1970 mix,** patched in places with 1969 mix

Weirdly, the true ‘1969 mix’ was actually released in Japan, on the **Let It Be Special Edition** SHM-CD (Super High Material) release, probably due to a mixup of mastertapes and released by mistake. However this ‘Japan Only’ 1969 mix presents some slightly differences from usual ‘1969 mix’ (namely Compilation 2 or 3) since it features the latest remix of *Dig A Pony* and *I’ve Got A Feeling* (those used in Compilation 4).
It seems to be an unknown (and upgraded) version of compilation 3.



This same ultra-rare compilation 3 variation, never before noticed, appears only on the 1975 vinyl bootleg **Let It Be 315** (Wizardo)

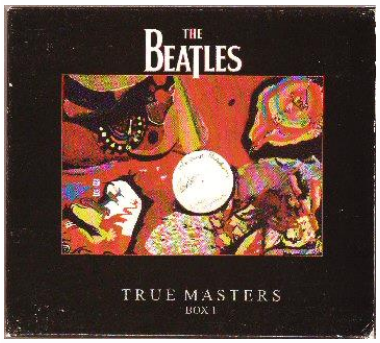
1970 GET BACK COMPILATION 4

Despite some surfaced acetates that may contain this compilation, recordings of 'Compilation 4' from acetates have never appeared on bootlegs. No copies of this compilation slipped out for thirty years, but in summer of 1999 the second (and final) Glyn Johns' compilation contemporaneously appeared on three bootlegs, taken not from an acetate but from cassette dubs that John Barrett made of reel AR16991/2.



True Masters (Roaring Mouse/Geritol)

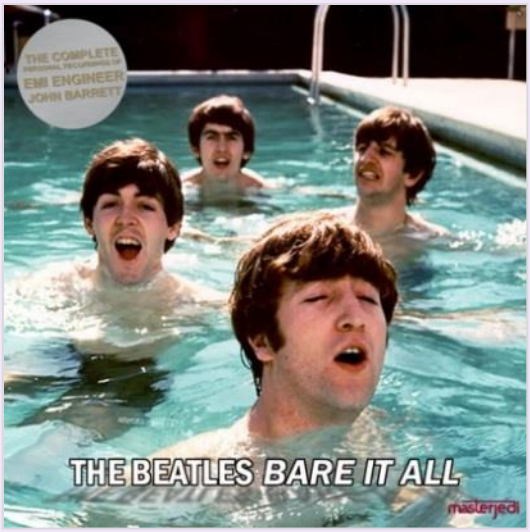
Get Back – 2nd mix (Strawberry)

Get Back With Don't Let Me Down And 9 Other Songs - The Glyn Johns Final Compilation (Vigotone)

Vigotone's release doesn't fully respect the original 'Compilation 4' Barrett tape, since some little trimmed parts in *Save The Last Dance For Me* and *For You Blue* (originally present in Barrett's tape) appear 'restored'

In 2015 MasterJedi released the CD-R **Bare It All,** containing the complete collection of John Barrett's recordings.

Disc 2 contains the 'restored' Barrett's tabe dub of Compilation 4, derived from **True Masters** (Roaring Mouse)



A part from the 'mistaken' Japan SHM-CD release, in the rest of the world, CD 4 of the **2021 Let It Be Special Edition** box set -despite being labelled as "Glyn Johns 1969 mix''- it instead contains the **Glyn Johns' 1970 mix** (Compilation 4) although with some dialogues, -at the beginning and ending of songs-, replaced by corresponding Compilation 3/'Glyn Johns 1969' snippetts , and *Teddy Boy,* unavoidably also this from 'Glyn Johns 1969 mix'.

Notice that the (Compilation 3) 'Glyn Johns 1969' mastertape used in the 'International' release, for patching chats and *Teddy Boy,* it's different and of slightly higher quality than the (Compilation 3)/'Glyn Johns 1969' mastertape used in the 'mistaken' SHM-CD Japanese release, and also the (Compilation 4) 'Glyn Johns 1970' mastertape, used as 'bulk' in this 'international' release, sounds superior than the Japan SHM-CD

1970 FOR YOU BLUE George's vocals variants

The 'Official' version of *For You Blue* was recorded on 25 January 1969, nonetheless, in January 1970, George re-recorded his vocals. The album **Let It Be** features solely the'new' vocals but in the various preceding **Get Back** compilations we can find the old vocals or both vocals alternating. **Naked** have new vocals and (in some points)' electronically' modified vocals

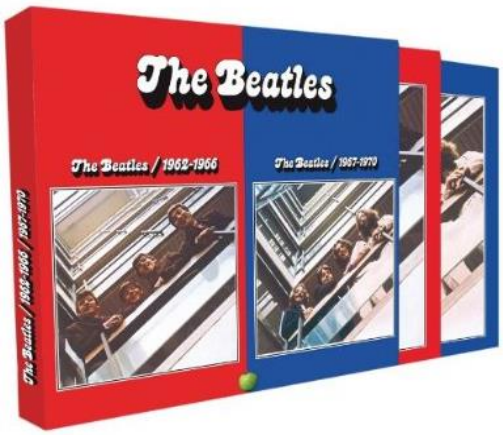
1973 RED ALBUM remixes variations

THE REMIX VARIATIONS OF THE RED & BLUE ALBUMS

These 2 compilations, released in 1973, a bit because of contractual obligations but above all to respond to the quadruple bootleg LP "**Alpha Omega**" which (thanks also to radio and TV advertising) was achieving excellent sales results. These compilations contain some rare variations and there are also notable differences between the various releases: UK Vinyl 73, US Vinyl 73, CD 93, CD 2010 and Vinyl 2014



Vinyl 1973 UK

UK edition of the Red Album featured some variations:

a remastered version of the 1966 Fake Stereo remix of *She Loves You*,

the version of *I Feel Fine* with the 'whispered intro' (present only in first pressings. In subsequent ones this 'whispered intro' was edited out)

the US version of *Day Tripper* [RS1], different from the UK version [RS2] released on **Oldies**

Nowhere Man and *Girl* were 'adjusted' in balance

Vinyl 1973 US

The US edition of the Red Album, instead, presents variations in nearly every songs : Capitol used their own mastertapes (quickly picking up what they found) and further reworked them, rebalancing channels in many tracks and reversing channels in others. In Capitol's archives there were also significant lacks like the stereo versions of *A Hard Days Night* and *Ticket To Ride*, here issued in Mono

Also of note is *I Feel Fine* released in Mono: the Mono US version still has an exaggerated reverb but, after all, significantly less than the US Stereo version, which (in 1973) was probably considered unpublishable.

Other rarities are the US remix of *We Can Work It Out* [RS1] and the US version of *Help!* with the "James Bond" intro

CD 1993

In this remastered edition, the 'Fake Stereo' remixes of *Love Me Do* and *She Loves You* were replaced by Mono versions

The remix of *She Loves You* was also fixed.

The impeccable Mono version was preferred in the case of *Please Please Me.*

From Me To You is also in Mono (The 'Harmonica intro' version)

Peculiarities of this release are the versions with the modified balance (narrowing) of *Can't Buy Me Love* and especially *All My Loving* which presents a marked 'centered' Stereo remix

Another difference compared to the 'classic' UK 73 version concerns the different songs taken from **Help!** and **Rubber Soul**, here replaced by the 'Remix 87' versions (CD 1987)

CD 2010

Apparently a copy of the previous one, instead, all the versions are the Remastered Stereo 2009 ones, except for *Love Me Do*, *Please Please Me, From Me To You* and *She Love You* in Mono, and the usual group of songs taken from **Help!** and **Rubber Soul**, also here replaced by the 'Remix 87' versions (CD 1987)

All My Loving, *Can't Buy Me Love* return in 'Wide Stereo', having been used the 2009 Remasters

Vynil 2014

Faithful reproduction of the 'classic' UK 73 version (with *Day Tripper* US Remix etc. etc) except for *Love Me Do* and *She Loves You* here in Mono.

Please Please Me (correctly) returns to stereo

Capitol involved George Martin who reworked the stereo mastertapes for every song, reversing channels and EQuing, in some case adjusting the balancement. In UK, EMI Records initially refused Martin's 'reworked' Capitol's tapes and released the double album with the original UK mixes, however, the UK 'splitted' 1980 reissue and its american equivalent both contain Martin's 1976 new 'remixes'

US & **UK Rock'n'Roll Music** albums include *I Call Your Name* [RS1#2+RS3] and *Long Tall Sally* [RS1#2] first UK Stereo remixes and the first release on album of *I'm Down,* which also had never been issued in Stereo before, except for a **Japanese EP** in 1965.
Barrett's notes report that a new Stereo remix of *I'm Down* were created in 1976 expressly for **Rock'n'Roll Music** album, the remixes are pretty identical but for some unknown reason the (Japanese Ep) 1965 remix wasn't used anymore

1980 US RARITIES remixes variations

This album is a compilation of songs or versions that were considered rare in the US, such as B-sides, tracks that hadn't been on any Capitol album, different mixes and also new 'creations' as for the remixes/EDIT of *I Am The Walrus* and *Penny Lane*

And I Love Her

There are two common versions of this song - one with Paul's voice mostly by itself and the other with Paul's voice overdubbed. However, on the German Something New album the song appeared (with the overdubbing) but unedited since the guitar riff at the end of the song is repeated six times rather than four times. That extremely rare version is offered here.

Help!

There are two versions, each with a different lead vocal. The single version is more rare than the album version so it has been included here. In addition, a "cleaner" British version was used.

I Am The Walrus

Capitol has created a new version of this song by combining the two rarest versions. Previously there were at least three versions. The shortest one is the most common in the U.S. because it appears on the stereo album. The other two versions both have something extra in them. The Capitol U.S. single has a few extra beats in the middle of the song right after the words "I'm crying" but before the words "Yellow matter custard." The stereo version from England has the intro riff repeated six times instead of four. Now these two oddities have been edited together for the first time. It is interesting to note that on every stereo version of this song ever released the song becomes "fake stereo" almost exactly two minutes into the tune with the bass predominantly on one channel and the highs on the other.

PENNY LANE	New EDIT Trumpet coda STEREO	
HELTER SKELTER	UK standard MONO (shortened)	
DON'T PASS ME BY	UK standard MONO (risen pitch)	
THE INNER LIGHT	UK standard MONO	
ACROSS THE UNIVERSE	UK standard #1 STEREO	
YOU KNOW MY NAME	UK standard MONO	SGT. PEPPER INNER GROOVE	UK standard STEREO	
Penny Lane

One of the rarest versions of any Beatles song was only released in mono to radio stations in the U.S. and Canada. It was "Penny Lane" with an extra horn riff at the very end of the song which was later trimmed off every version ever offered for sale. In addition, "Penny Lane" has never been released in the U.S. in true stereo (believe it or not). Capitol has taken a stereo version of the song and tagged on the rare final notes which, collectors might argue, actually creates yet another version of this classic tune.

Helter Skelter

Strange as it may seem, The Beatles and George Martin remixed many of their albums for mono rather than simply combining the stereo mix onto one track. Some of the songs have noticeable differences, but the later records such as the "White Album" were released in the U.S. in stereo only. One of the songs from that album, "Helter Skelter," is changed considerably on the mono version included here. The vocals are much louder, laughing is heard at the beginning, "beeping sounds are scattered through the song and the drumming at the end is different. When the song fades out at the end, it doesn't come back like on the stereo version so you don't hear the classic Lennon statement, "I've got blisters on my fingers."

Don't Pass Me By

Another strange mono mix from the "White Album," this version is especially different than the stereo towards the end. Note the changes in the violin and vocal sounds. Ringo's voice also seems to be at a higher pitch than on the stereo version. Although there wasn't room for them as part of this package, there are other songs off the same mono album with differences, notably "Piggies" and "Blackbird" which both contain "animal" sounds that are somewhat changed.

> The "Inner Groove" was not included on the American version of **Sgt. Pepper's Lonely Hearts Club Band**

UK album contains all standard (UK) Stereo remixes

The **US album** presents a peculiar mastering with reduced treble and absent basses. Spizer describes it like this: "*Due to the way the songs were EQued, the album has more of treble than the other Capitol Beatles albums*"

The US album contains a unique version of *I Should Have Known Better* with the **fixed armonica intro**

It features also the first US release of the **UK EP Stereo** remix of *I Am The Walrus,* which is also the 'standard' version that currently circulates (on **MMT CD** 1987 & 2009 and **Blue Album CD** 1993 & 2010)

Despite the same title, the albums have many different/exclusive contents:

UK 20 GREATEST HITS

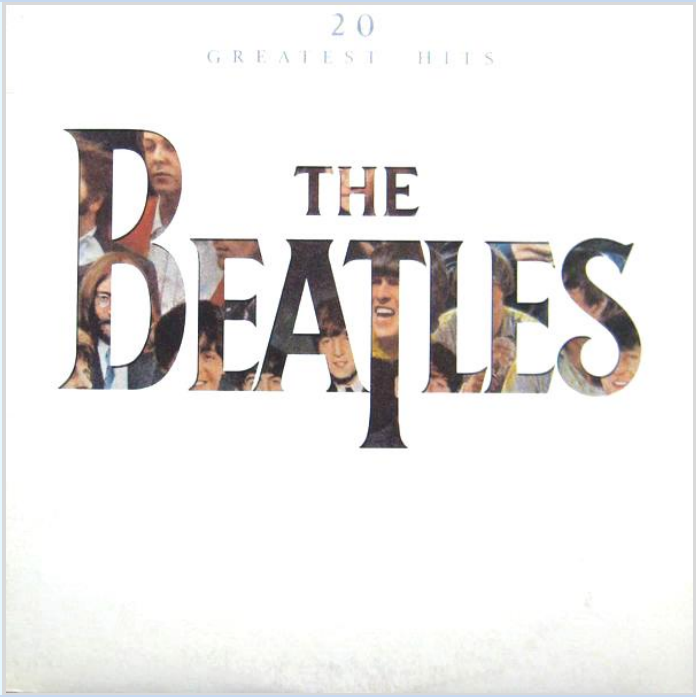
> *Love Me Do* appears in Fake Stereo, from **Please Please Me LP**

> *From Me To You* and *Lady Madonna*, present only on the UK version, are both with slightly narrowed channels

> *She Loves You* appears with the same 'rebalanced' Fake Stereo remix used in the **UK Red Album 1973**

> *I Feel Fine* features the rare 'whispering intro' present only in first copies of the **UK Red Album 1973**

> *Day Tripper* appears with the rebalanced variant of the US Stereo Remix, released first in the **US Red Albums 1973**



US 20 GREATEST HITS

US 20 Greatest Hits was mastered by Capitol shortly after **Reel Music**, with the same 'bassless' EQ approach, on almost all tracks, and many tracks were actually even taken directly from **Reel Music**. Despite the weirdness, this EQ seems to have been appreciated by more than one, in fact, Brennan asserts: ''*…Songs on **20 Greatest Hits** and **Reel Music** actually sound better than on any earlier Capitol LPs…*''

> *Love Me Do* and *She Loves You* are Fake Stereo

> *Hey Jude* is a unique version, shortened to 5:05. It appears only on this LP

☞ Circulating **US 20 Greatest Hits DESS 2001** is a forgery: incorrectly EQued and features dubious tracks, among them *Ticket To Ride, Help!* and *Yesterday* with the 1987 remix

1990 HELP! and RUBBER SOUL CANADIAN CD with 1965 'Original Remix'

In 1990, Capitol erroneously sent to Canadian label Disque Americ the original masters of **Help!** and **Rubber Soul** in place of George Martin's 1986 new remixes, so it ended that the original 1965 Help!'s and Rubbers Soul's remixes were put in commerce, 19 year before the release of the two Stereo bonus discs in the "Mono Box 2009"!

These digital masters are slightly different from the bonus discs in the "Mono Box" because they directly came from the original 1965 masters, totally untouched and unaltered, with old-fashioned longer pauses between songs and without compression, glitches corrections or noise filters (as for the two 2009 remastered bonus discs)

All songs were newly remixed by Peter Cobbin from the original multitrack tapes. Many tracks were remixed synchronizing the 'master take' with elements from previous takes, thus allowing complete control in panning and effecting single instruments and vocals

2014 THE U.S. ALBUMS: the remastered 'Capitol unique mixes'

The U.S. Albums is a box set, released in 2014, containing what should have been the collection of 13 CD with the American albums.
Most likely, considering the usual EQed and reverbed Capitol's albums mastering -that sometimes got out of hand-, and, above all, the various US freaky 'Fake-Mono' (Type B), 'Fake-Stereo' (Duophonic), 'Bouncing Mono' and all that..., for almost every song, they unfortunately chose to use the modern remixes ('international' 1987 and 2009 Remasters) as source, instead of original mastertapes,. Nonetheless, in very few cases (but fortunately the most significant US 'dedicated' remixes) the original 'historic' Capitol's unique US mixes were dusted off and newly remastered.
These are the Capitol's original 'unique remix' remastered tracks:

SECOND ALBUM MONO		Long Tall Sally I Call You Name
A HARD DAY'S NIGHT MONO		I'll Cry Instead (Mono) And I Love Her (Mono)

VINYL

BEATLES' VINYL MATRIX NUMBERS

Matrix numbers are alphanumeric codes (or other symbols) stamped or hand written into the run-out groove area of a gramophone record.

Matrix numbers are intended for the internal use of the record manufacturing plant, but they are also studied and documented by record collectors, as they can sometimes provide useful information about the edition of the record.

The most important part of the extra information is usually the cut number, which is a suffix to the main number.

For example, matrix number 12345 is seen on a label, but examination of the run-out groove area reveals number 12345–3, which indicates this is the third cut of this side.

It is not unusual to find records with a different cut number on each side.

LACQUER, MOTHER AND STAMPER NUMBERS

At the "**6 O'clock**" position on the inner groove area is the **LACQUER** number (cut number) with a -1 or -2 etc.
For instance, Beatles For Sale in stereo is YEX 142-1 (etc.).
The "1" means the FIRST LACQUER cut from the mastertape. -2 the second etc.

At the "**9 O'clock**" is a number which tell you what "**MOTHER**" was used to generate the stamper actually used the press the record.
A number of "mothers" are generated from the lacquer.
Obviously a "1" means first mother generated from the lacquer.
A "5" means it was much later--the fifth mother generated from the lacquer.

At the "**3 O'clock**" position there will be one to three letters, which are codes associated with numbers as follows, which tell you what **STAMPER** was used to press the actual record:

G	R	A	M	O	P	H	L	T	D
1	2	3	4	5	6	7	8	9	0

Therefore, if the letters say "GR" that is stamper 12. "O" is stamper 5 etc.

YEX 142-1, mother 1, stamper G
is the very first pressing of "Beatles For Sale" in stereo: first lacquer, first mother, first stamper.

YEX 142-1, mother 4, stamper RLT.
That would be first lacquer, 4th mother and 289th stamper generated from that mother.

The master used to generate the metal parts was not always generated from the first lacquer; engineers often had to cut more than one lacquer to determine the proper sound or in some rarer cases (Rubber Soul Mono and Revolver Mono) lacquers were re-cut shortly after the start of the initial press run to improve content.

Legend

Lacquers: -1, -2, -3, -4, -5, -6, -7, -8 ,-9

After a satisfactory lacquer was produced, it was sent to the factory for the creation of the metal parts needed to manufacture the records.
While Capitol in the States often cut **numerous lacquers** for each album (that could then be used to produce multiple masters), EMI would initially cut only **one set** of acceptable lacquers for each disc.
During the sixties, EMI cut the lacquers for Beatles singles, albums and extended play discs on *Scully* lathes at Abbey Road. Many of the albums were cut by Harry Moss.
Lacquers were also re-cut when the master became too worn down to generate additional mothers needed to make more stampers. This frequently happened within a few years for the Beatles albums.

Pressings: ① ② ③ ④ ⑤ ⑥ ⑦ ⑧ ⑨ ⑩ ⑪ ⑫ ⑬

Historically record collectors use terms like ***3rd pressing***, ***4th pressing*** etc. when in reality there was rarely any such clear distinction.
These records remained in production and there were dozens of pressing runs as demand dictated.
There is, however, often an identifiable 'chronology' to record production which can be derived from reviewing the matrices and other dead wax information, the labels, vinyl weight, the LP covers they were put in, and, the inner sleeves.
